

TG13.3 – Ground Level Landscaping Construction Services RFQ

Questions are numbered in the order received.

Question No.	Submission Date	Question	Response
TG13.3-001	6.18.2014	In reviewing the federal requirements, we noticed the Civil Rights, DBE, Fly America and Buy America, Clean Air and Clean Water Requirements for the project. However, we were specifically looking to see if there were requirements to use the E-Verify (Internet-based system that verifies employee eligibility). I searched the document and was not able to find anything specific to E-Verify usage requirements. My concern is that we are not looking at the specs specific to our Ground Level Landscaping section and may miss something.	The Transbay Transit Center project does not have an E-Verify requirement.
