5. Facility Operations Update (10 minutes)

Public Comment:

Jim Patrick responded to the presentation that discussed the new Clipper Card policy of using credit cards to pay fares by reporting that credit card use carries steep fees, and he hoped that Clipper is budgeting for them. He also expressed his dissatisfaction of the real estate management of the first floor of TJPA's Salesforce Transit Center and stated that the art there needs to be refreshed.

6. The Portal Update (15 minutes)

Alfonso Rodriguez, The Portal Project Director, presented the item.

Public Comment:

Roland Lebrun suggested the team review the Channel Tunnel Railway project as it had to acquire 2,400 properties; he further advised them to study the Pennsylvania Avenue Extension (PAX) in conjunction with the Townsend street station; and also, to study the south bay project which is using progressive design build construction since they had to let go of their contractor. He shared the impacts of this decision to the project.

7. Public Comment

Roland Lebrun wished everyone happy holidays.

8. CAC Member Comments & Future Agenda Requests

Secretary Lerrick reiterated for the record, that since both Director Madjus Wu in agenda item 2 and Director Walsh in agenda item 5 reported on the Clipper card changes including that the Clipper machines in TJPA's Salesforce Transit Center would not be upgraded, future agenda item 5 "update on upgraded Clipper machines in the Transit Center" would be removed from the list.

Chair Larkin inquired about when the Link21 presentation would be scheduled. Ms. Madjus Wu assured him that the Link21 team plans on presenting an update in 2026 but no date has been set yet.

Member Munoz requested an Office of Community Investment and Infrastructure (OCII) presentation on the development of Block 4, to which staff replied that OCII gives presentations to the CAC on updates to sites pertaining to TJPA when they have new information.
